

**FINAL EXAMINATION**  
**COPYRIGHT**  
**Paul Ohm**  
**April 27, 2010**

**Instructions:**

Please read these instructions carefully before proceeding.

1. The examination consists of five (5) pages, including the pages containing these instructions. You will find three problems. Please make sure that your copy is complete and that you answer all three problems.
2. This is a take-home examination; you have six (6) hours to complete the exam. Your answers to the exam must be returned to the Registrar by the time she indicated in the email she used to send this exam. Your answers can be returned electronically via email to [cindy.gibbons@colorado.edu](mailto:cindy.gibbons@colorado.edu) or in person. **DO NOT RETURN YOUR ANSWERS TO PROFESSOR OHM.**
3. If you hand in your answers late, I may—at my sole discretion—deduct points or give you a failing grade.
4. If you are typing, you must submit your answers in a computer file with a file format that the Registrar can access on her computer. If the Registrar cannot access your answers, they may not be graded. Recommended file formats are Word 2007 (\*.docx); Word 97-2003 (\*.doc); Adobe Acrobat (\*.pdf); and Rich Text Format (\*.rtf).
5. The exam is worth 300 total points. Each problem is worth 100 points, or one-third of the final exam grade.
6. Answers will be graded based on content, clarity of expression, and organization. I suggest that you spend time outlining your response before you start to write. Where information is not provided that would be relevant to the analysis, feel free to explain how different facts would lead to different outcomes.
7. Assume that all cases that were pending when we discussed them in class are still undecided. If any cases have been decided during the course of the semester, you are not responsible for knowing the final rule, result or reasoning, and you will gain nothing by talking about the new decision.
8. Since this is a class about entertainment and technology, some of the fact patterns may be based on real creative content, technology, and products. You will not be rewarded or penalized for facts about the actual content, technology, and

products that are not presented in the exam questions. Feel free to add these types of details if you think they improve the readability of your answer.

9. In answering these problems, you may consult any written materials you wish. You may also consult electronic materials stored locally on your computer and any materials hosted on our class website, <http://paulohm.com/classes/copr10/>. You may not use the Internet to discuss the exam or assist you with the exam in any other way.

10. Regardless of when you return the exam, you may not communicate with any other student in our class *for any reason* prior to the time when the exam is due. In addition, you may not communicate with anyone else (e.g. students in other classes, family members, other professors, etc.) about the exam prior to the time when the exam is due. A NUMBER OF STUDENTS ARE TAKING THE EXAM AFTER THE SCHEDULED DATE, SO BE CAREFUL TALKING TO FELLOW STUDENTS EVEN AFTER THE DEADLINE FOR THE EXAM.

11. Each problem has a separate word limit, indicated at the beginning of the problem and as follows: Problem One: 1750 words; Problem Two: 2000 words; Problem Three: 1000 words. **Please put the number of words you write at the end of each answer.**

12. If you are handwriting the exam, please write on only one side of each page.

13. Good luck!
